

## **HW CORPORATE FINANCE (SE) COMPLETES 7<sup>th</sup> DEAL OF 2010 WITH THE DISPOSAL OF TM FACILITIES**

August 2010

**HW Corporate Finance is pleased to announce the successful disposal of TM Facilities Services Ltd, specialist in portable appliance and environmental testing to OCS Group UK Ltd, a leading support services provider.**

**The transaction provides OCS with an excellent platform from which to expand into the growing compliance market. OCS will benefit from access to a pool of high quality blue chip and public sector bodies and strengthens its testing offering to incumbent clients.**

**OCS Group UK Managing Director Martin Gammon said, “The acquisition of TM Facilities Services strengthens our Environmental & Compliance business unit which already features a range of compatible services including waste management and safety risk assessment. The addition of a profitable, national and successful business complements our strategy and will benefit our existing customers enormously. This deal further strengthens our position in the UK total facilities management market”.**

**The team at HWCF was led by Partner Charles Whelan (pictured below), closely supported by Matthew Wright. The deal is HWCF South East’s seventh in 2010 and underlines the notion that despite a difficult economic outlook high quality businesses are attracting strong multiples so long as quality buyers can be sourced.**

**HWCF advised the shareholders, led by Adrian Hollister, on all stages of the deal. Adrian commented “I was very pleased with the advice, guidance and support provided by the team at HWCF. They were very effective at finding the right buyer, and negotiating a successful sale. However, in retrospect it was equally important that they were enjoyable to work with, making the experience considerably less stressful than it potentially could have been”. For more information on HWCF or if you want to contact any of the team please go to [www.hwcf.co.uk](http://www.hwcf.co.uk) or call 02380 111 310.**
